Sure enough, Mr. Seahorse came again.
Mr. Seahorse came to see every day for seven days in a row. As usual like me!
You envy from the little
Must be most be! Because, he cover Miss Seaweed's hair. It's so beautiful!
Pufufu
Pufufu
Don't show him please!
What?! Miss Seaweed used to look like this?!
These gazers again. Miss Seaweed' s hair keep gets worse..
Another handful of yin hair kit kat!
We' ve brought to Doctor Seaweed
Doctor, why is Miss seaweed bald?
Well, there are many reasons. These hairs, for example, were pulled off by a sticky hand
The receding hairline is due to land reclamation.
And that's because the chemicals used in seafood farming pollute the water!
Eeee doctor! Calm down quickly! Injustice to You Bro!!
Don't shake it! If you shake off my hair kit, I'll fight with you too!
You must have a way! Help me quickly, save my hair, or I'll fight with you!
Establishment of marine protected areas
Closure of seafood farms
Prohibition of
Poaching recovered
Why is it illegal to take bottom seine, fishing
Mr. Seahorse moved to yin hair kit!
Since then, Miss Seagrass's hair has gradually regrown and there have been more sea creatures, and the community has become more lively.
It's a bit too faulty.
However... Mr. Otaku has been here for so many days, so he probably like Miss Nikusa
I have travelled to many places and heard of Miss Seaweed's beautiful hair, but not at all like that. Miss Seagrass, please take good care of the habitats in the future!
She is still so immature.....
Why isn't always an ishiyaki bun? Why?
TO BE
